The No Waste Basket

No glue, no nails, no screws, no staples. A few strategic cuts is all it takes to create this cork trash bin

by Paul Schifino | Photos by Alex Farnum

CORKBIN

MAKE IT

\$10

INGREDIENTS

- 5 12" square cork floor tiles

TOOLS

- Utility knife
- Metal Ruler
- Pencil

1. Download this PDF template, and follow cutting instructions to trim out the five tiles.
2. Take the bottom piece and slide the tabs into the slots of the front and back pieces.
3. Now take the side pieces and slide the channels together on the front and back pieces, and it's done! The loveliest—and quite possibly the only—trashcan you'll ever make.

{ TIP } These templates were created for a tile that is 3/16" thick. If you use a thicker tile, the channels will need to be widened accordingly.

READYMADE IS BUSTIN' OUT!
Come do time with us at these events!

Vampire Weekend, the Raconteurs, CSS, Antibalas, a daily treasure hunt conducted via texting, a vendor village, massage station, on site hairstylist and ReadyMade?! How can you beat that?

Artists include Dinosaur Jr., Ghostface, Apples in Stereo, and more. Don't forget the artists at the onsite indie design and craft fair and at Flatstock, the finest in rock poster design. Be an artist yourself at the *ReadyMade* booth —we'll have crafts!
